

# uusimaa type foundry incorporated

is a fictional type foundry which produces very real fonts on a computer in Järvenpää, Finland.

This PDF shows the characters available in the fonts which are included in the freely downloadable file "zip.zip" on [www.utf1.net](http://www.utf1.net)

Many of the fonts are incomplete compared with the range of characters usually included in commercial fonts but almost all of them contain the letters required to write English, Finnish and Swedish with a few basic punctuation marks and numbers. Letters requiring carons, macrons, ogoneks and other Central European diacritics are all currently absent (autumn 2008).

Here are the letters which may be included. The template below is reproduced in each available font so if a character is not available in the font, it will not appear. Simple!

# Legal stuff

These fonts are free for all use including professional commercial use. I request permission for commercial use and also a jpeg or other picture file of the end product for possible inclusion in my utfi.net website to illustrate the uses to which my fonts are put but that is purely voluntary.

I can guarantee that the fonts downloaded directly from utfi.net are free of viruses, trojans, worms, decent kerning and Central European diacritics. I claim for these fonts no suitability for the user's end purposes and their use and suitability of purpose should be determined and approved by the end user before presentation to his/her final customer. These fonts may not be included in other downloadable packages and all are protected by the international copyright of their creator, Stephen Bird, effective in the current year.

In other words, use these fonts at your own sensible discretion and make creative use of them. I myself have downloaded hundreds of free fonts created by others and the Uusimaa Type Foundry Incorporated is my way of giving back something to the amateur font creation community.

Thanks for your interest. More fonts are on the way so do check [www.utf.net](http://www.utf.net) every six weeks or so to see what else is new and possibly useful.

Best wishes from Finland! SB
